

**SECTION 01 53 16
SIDEWALK SHEDS**

A. RELATED SECTIONS

1. 01 35 33 Site Safety
2. 01 41 00 Regulatory Requirements

B. SCOPE OF WORK

1. During roofing installation and as otherwise required the Contractor shall install 8' high sidewalk shed of 2" pipe sidewalk shed 6' wide and minimum 8' high, with wire mesh barrier and lights. Provide sidewalk sheds including all required lighting, grounding and wire mesh fencing and overhead 5/8" plywood.
2. Perform daily inspection at the work site and confirm that all sidewalk shed are in safe condition and lighting is always functioning as required to ensure maximum safety and security. Repair and replace damaged sidewalk shed components as required.

C. SIDEWALK SHEDS

1. The Contractor shall submit shop drawings, calculations, and all other requirements for shed construction to the Authority for approval prior to erection of any sidewalk bridges.
2. The Contractor shall secure permits for any sidewalk sheds or bridges and shall adhere to Local Law 33/91 requirements. Applicants for the permit must state why the bridge is required and why permit should be renewed at time of expiration. Installation shall be by licensed contractor.
3. Any sidewalk bridges shall conform to the NYC Building Code, OSHA regulations, and to all requirements of public agencies having jurisdiction thereof.
4. The Contractor shall notify NYCHA's Field Inspector and the Project Superintendent 48 hours prior to the erection of any sidewalk sheds, and shall coordinate his/her efforts so as not to interfere with normal activities of the development staff and residents.
5. The Contractor shall be responsible to coordinate in advance with the other Contractors and the Contractor's Supervisor so as not to interfere with the overall progress of the Work.
6. The Sidewalks shed(s) shall be safe, secure, and properly maintained at all time. All necessary provisions shall be made to protect the workers and the public against any hazard or injury, and all property from damage. The Contractor shall be held fully and solely liable for any harm, injury or damage resulting from faulty, damaged, or weak construction of sidewalk bridges.
